

Position: **Web Developer**

Altair Travel Agency S.A. a leading Company in the Greek market since 1980 is comprised of two online brands: Petas.gr for the Greek and Cypriot markets and Tripair for all international markets where we currently operate providing our customers with tourist services. Our offices are located at 26 Pentelis street, Palaio Faliro, in Athens.

Currently Altair seeks for a Web Developer with knowledge in PHP/MySQL development to work with us and add value to the growth of our business.

**Job Responsibilities:**

- Back-end and front-end collaborative development.
- Websites support and maintenance.
- In depth knowledge of the agency's operations model and services.

**Required Skills:**

- Knowledge of back-end development (PHP 7.2+, MySQL)
- Hands-on understanding of Object-oriented programming with ability to work in multiple technologies.
- Knowledge of RESTful APIs
- Experience with web-based protocols and standards (Web services, SOAP, REST, WSDL, XML, JSON).
- Excellent team spirit
- Military obligations fulfilled (for Greek male applicants)

**Ideal Candidate:**

- You can write secure, clean, readable, modular, and reusable code.
- You are eager to identify, take ownership of issues, and drive them to resolution.
- Ability to understand project requirements and accurately break down into effort.
- Highly organized, detail-oriented, and able to work autonomously with minimal direction.

**We offer**

- Competitive monthly salary
- Private health insurance

- Work in a pleasant environment
