

Junior Developer

Let's Build the Next Industrial Revolution Together

Behind every product is a person

At Vimachem, we're using technology to empower the people who manufacture medicines for our world. This is why we are developing the world's biggest manufacturing intelligence AI platform. The platform is built using cutting-edge technology, written in a modern, testable and object-oriented manner that promotes reusability, generic functionality and high performance. We use microservice architecture that enables rapid, frequent and reliable delivery of large and complex applications.

We are a tech company with offices in NYC and Athens, currently looking for a Junior Developer to join our Athens team of superstars developers.

Tech stack

- C# / .NET 5
- Angular 11
- Mongo DB
- MS SQL Server
- TimescaleDB
- RabbitMQ
- Redis
- Grafana
- Azure DevOps for CI

Please read below for full description of the available position.

What will you do?

- Develop solutions following established technical design, application development standards and quality processes.
- Provide ongoing support and maintenance for applications, processes and systems as needed.
- Write well-designed, efficient, and testable code.
- Research new technologies to find new and efficient ways to solve day to day challenges;

Good to have:

- 0-2 years of working experience.
- Familiarity with Frontend development, preferably with an SPA framework with some knowledge of SASS/CSS.
- Familiarity with Backend development, preferably with .NET.
- Familiarity with databases.
- A fair grasp of design patterns.
- Confident in developing solutions with good programming practices and design patterns.
- Familiarity with version control systems, preferably with Git.
- Understanding of basic web technologies such as HTTP, REST, etc.

Must have:

- Bachelor's degree (or equivalent work experience or specialized training) in Information Technology (IT), Computer Science (CS), Software Engineering, or related discipline.
- Strong analytical and problem-solving skills.
- Quick learner with a growth mindset.
- Strong interpersonal, written, verbal communication skills with an ability to multi-task.
- Excellent organizational, prioritization, and time management skills.
- Self-motivated and innovator.
- Accountable, self-sufficient with a can-do attitude.
