Data Scientist Intern

What makes us a Great Place to Work

Convert Group is the first Greek tech company to be included 6 times in the country's top 25 Workplaces in the small and medium-sized firms categories. This recognition comes from the Great Place to Work® International Institute which this year counts its 20th year in Greece. In 2021, Convert Group was awarded as the 4th Best Workplace in Europe in the small and medium-sized categories. We believe that diversity, inclusion, and collaboration are key to building great teams. We hire people with exceptional talents, abilities, and potential, then create an environment where you can become the best version of yourself and thrive professionally and personally.

We are looking for a **Data Scientist Intern** to be part of our technical team that helps improve our products by making the most out of our data. Your responsibilities include supporting the data science team, planning and delivering data science and machine learning projects to support our SaaS web applications.

Key Responsibilities:

- Support data mining and acquisition processes
- Ensure data quality and integrity
- Experiment with new models and techniques
- Support in defining and implementing predictive models

Our data science stack includes:

- Python 3, PostgreSQL, MongoDB, Scrapy, FastAPI, OpenCV, scikit-learn, TensorFlow, MLflow, Docker, Prefect, AWS

Requirements

- Familiarity with software engineering principles
- Knowledge of Python and SQL, is a plus
- Critical thinker, detail oriented with strong analytical skills
- Advanced written and verbal communication skills

What We Offer:

- A modern working environment
- Welcome kit including company laptop
- Co-workers with big smiles
- Flexible working hours, ability to work from home

- Internal knowledge sharing
- Snacks, coffees and drinks on us
- Access to resources for professional and personal development
- A variety of company activities
- Flexible internship duration

About us

The company boasts a rich portfolio of 15 out of the 20 biggest global FMCG & Consumer Healthcare firms such as L'Oréal, P&G, Unilever, Bayer, GSK, Johnson & Johnson, Nestlé, Coca-Cola Company, Henkel, Bayer, Beiersdorf, FrieslandCampina, Heineken, Barilla, Colgate Palmolive, Perrigo, Pierre Fabre and dominant retailers such as Ahold Delhaize, Carrefour, Sephora, Rakuten and hundreds of online pharmacies around the world.

Here's what our last intern said after completing his internship:
"I worked for Convert Group as a Data Scientist Intern for about half a year. The working environment was the best I could have expected for my internship. Apart from being competent, my former colleagues are also very friendly and supportive to new members of the team. I acquired useful skills and knowledge working in a pleasant environment. The management is also supportive, inspiring and caring for the employees' needs."
